🌐 linkedin.com/in/arthur-pechyonkin

Multidisciplinary designer with 8+ years of experience, specializing in product design, with strong skills in visual and graphic design. Most of my career has been focused on digital products in entertainment, while also designing products across very different subject areas. Key strengths include finding the right balance between emotional visual design and usability, strong attention to detail, and systematic thinking. Comfortable working both independently and as part of large product teams

Work Experience

2023 - 2026

Zvuk

Designed core areas of a mobile streaming app with 1M daily active users, including the home screen, catalog, collection, and content pages. Contributed to the full design lifecycle from concept to production and independently improved selected design processes across the team and product

2022 - 2023

TON Play

Designed a B2B SaaS platform enabling Web3 game developers to publish games on the blockchain and manage crypto infrastructure, from NFT creation to player analytics

2020 - 2022

Shakuro

Designed digital products from scratch across diverse subject areas and international markets, ranging from a social network for esports players to a P2P service for exchanging goods

2019 - 2020

Rarus

Worked across product and graphic design for large, established digital products spanning multiple technology sectors

2018 - 2019

Freelance

Worked as a graphic designer for music artists, creating album covers, promotional visuals, and branding, and later expanded into creative title design for music videos

Education

2016 - 2020

Sevastopol State University

Programmer · Bachelor
